We have only had two lessons so far , however, it has been excellent. My son is enjoying them and is engaging well with his tutor."Far better than his teachers ",was his comment.Good feedback system which involves the parents continually.

Very Kind and Engaging Tutor.. Extra patient and knowledgeable. Has all the skills to ensure your child wants to learn and keeps focused. Key to a child learning is enjoyment and that he brings to the table. Rates are really reasonable for his skill set. This is what teachers should be about!
